

Special PET Expandable Cable Wrap

Model Number: SB-ES-SC

Self-closing expandable cable wrap

Usage

Self-closing cable wrap offers innovative solutions to the protection of breakout areas and also provides ease of removal when inspection or maintenance of cables is required. The special open structure allows it can be installed after necessary components, for examples copper terminals and connectors. Strong resilience force keeps the wire or the cables not exposed, meanwhile provides excellent abrasion resistance and flame-resistance.

Size

Inner Diameter=3mm, 6mm, 9mm, 13mm, 19mm, 25mm, 32mm, 38mm, 50mm

Model Number: SB-ES-V

Expandable sleeving with velcro

Usage

Velcro cable wrap is widely used in bounding and protecting of electrical cables, power cord in home theater, computer, TV, switch, and so on.
