

Cold Shrink Tubing

Model Number: SB-WCST

Description

Cold shrink tubings are insulated, open-ended, rubber sleeve which is factory expanded and assembled onto removable plastic cores. The core is removed after the tubes have been positioned for installation over an inline connection, coupling cable or terminations, allowing the tubes to shrink and form a water resistant seal. The cold shrink tubing are made of liquid silicon rubber.

Dimension

No.	Before expansion Inner Diameter (mm)	Before expansion Length(mm)	Before expansion Thickness(mm)
1	Φ 6.6	450	2±0.2
2	Φ 9.2	490	2±0.2
3	Φ 10	490	2±0.2
4	Φ 14	450	2±0.2
5	Φ 16	450	2±0.2
6	Φ 19	470	2±0.2
7	Φ 23	500	2±0.2
8	Φ 23	500	3±0.2
9	Φ 28	500	3±0.2
10	Φ 34	500	3±0.2
11	Φ 40	500	3±0.2
12	Φ 73	480	3±0.2
13	Φ 35	430	6±0.2
14	Φ 58	430	6±0.2
